ESSENTIAL EQUIPMENT

With our state-of-the-art equipment fleet, we can help you tackle whatever environmental need comes your way.

Vacuum Trucks

Flame arrestor and liquid ring vac trucks to safely handle organic sludge waste, liquid waste, semi-solids, powders and packaged or bulk solids.

Vacuum Tankers

Fiberglass and stainless steel 5,000-gallon vacuum tankers to safely transport various types of corrosive materials.

Mobile Storage Tanks

10,000- and 20,000-gallon frac tanks enable temporary on-site storage of waste liquids.

Roll-Off Vehicles & Boxes

Single-rail and dual-rail roll-off vehicles and boxes tarped with sealed tailgates to contain a variety of solid and semi-solid wastes. Vac boxes for on-site liquid, sludge and semi-solid waste storage.

Drum Recovery Vehicles

Drum recovery vehicles and expert drivers move more than 500 drums weekly and deliver fresh drums and other packaging supplies in compliance with DOT regulations.

Flatbed Trailers

Flatbed trailers to transport a variety of large waste items, including tanks, transformers and scrap metals.

Specialized Equipment

Grain vacs, mobile nitrogen generation trailers, vapor compression trailers and other equipment for specific needs.

Annihilator

Quickly and efficiently removes and recovers hydrocarbons and other hard surface stains. Proprietary equipment owned by EnviroServe.

Additional Equipment

Dump trailers and light construction equipment for various waste-disposal and transportation projects.
